

BART Oakland Airport Connector

Construction Details

Summary of Activities

OAC construction is underway in various locations throughout 2012. OAC is scheduled to open for service in late 2014.

Public Impacts

- Delivery of construction equipment and materials
- Lane closures and shifting of traffic
- Pedestrian and bicycle detours
- Noise and vibration from pile driving, deep drilling and jackhammering
- Dust from excavating and off-hauling materials

Noise, dust and vibration levels will be monitored and all efforts will be taken to minimize these and other disruptions to the community. Storm water pollution prevention plans are also in place to mitigate the project's environmental impacts.

General Work Hours

7 am to 7 pm
Monday through Saturday

Some work will be performed at night between 9 pm and 5 am Sunday through Saturday.

Construction Notification #28 Construction Update Continued Construction in 2012

June 2012

The **Oakland Airport Connector** is a 3.2-mile extension of BART from the Coliseum/Oakland Airport BART Station to Oakland International Airport, via a driverless people-mover system along the Hegenberger Road business corridor. The system will transport riders in less than 15 minutes door-to-door, and vehicles will depart every 4 minutes. The system is scheduled to open for service in 2014.

Construction of OAC began in March 2011 and is underway in various locations along the system's alignment. This chart outlines start dates and estimated durations for upcoming and ongoing construction activities.
